

Philips
Component HD/AV cable

for Wii

8 ft

SGP8004

Best connection for Wii and TV

24K split tip connectors provide a secure fit and high conductivity between your Wii and TV for optimum resolution gaming graphics.

Enjoy better graphics quality

- 24 carat gold-plated connectors optimize signal
- Split center pin for better signal transfer
- 5 RCA connectors
- Supports 480i and 480p resolutions
- Oxygen-free copper conductor for ideal signal transfer
- Foam Polyethylene (FPE) Dielectric

Reduce cable clutter

- Wii Sensor Bar extension cable

Extended durability

- Protective metal shell for extended durability
- Flexible PVC jacket
- Rubber strain relief

Easy installation

- Color coded connectors for instant recognition

PHILIPS

sense and simplicity

Component HD/AV cable
for Wii 8 ft

Specifications

Packaging dimensions

- Packaging dimensions (W x H x D):
6.4 x 9.8 x 2.2 inch
- Nett weight: 0.582 lb
- Gross weight: 0.796 lb
- Tare weight: 0.214 lb
- UPC: 6 09585 14559 7
- Number of products included: 1
- Packaging type: Blister

Outer Carton

- Outer carton (L x W x H): 15.8 x 14.8 x 21.5 inch
- Nett weight: 13.968 lb

- Gross weight: 24.983 lb
- Tare weight: 11.015 lb
- GTIN: 2 06 09585 14559 1
- Number of consumer packagings: 24

Inner Carton

- Inner carton (L x W x H): 15.3 x 7.1 x 10.3 inch
- Nett weight: 3.492 lb
- Gross weight: 5.672 lb
- Tare weight: 2.180 lb
- GTIN: 1 06 09585 14559 4
- Number of consumer packagings: 6

Product highlights

24 carat gold-plated connector

24 carat gold-plated connectors ensure the best signal quality for your components.

Split center pin

The split center pin allows for better signal transfer and an improved connection to the component inputs.

5 RCA connectors

Allows you to choose how to connect to your TV, through component or composite inputs with stereo audio jacks.

Supports up to 480p resolution

This ability to handle higher resolutions provides the best graphics possible on your system.

Solid high purity OFC

This oxygen-free copper conductor provides the highest accuracy in signal transfer with minimal resistance.

FPE Dielectric

Foam Polyethylene (FPE) dielectric is a superior insulation material that protects against signal loss.

Wii Sensor Bar extension cable

This superior designed and constructed cable extends the reach of the original Sensor Bar cable that comes packaged with the Wii. It effectively reduces the possibility of damage to the original Sensor Bar cable, provides more play area and reduces cable clutter.

Metal shell

The metal shell protects the internal connection of the cable. It ensures durability and the reliability of your connection.

Flexible PVC Jacket

Flexible PVC jacket provided protection to the delicate core of the cable. It also offers extended durability and ease of installation.

Rubber strain relief

Rubber strain relief provides a secure, yet flexible juncture between the cable and the plug.

Color-coded connectors

Color coded connections make it easy to install your cable into the correct inputs and outputs
