- **Height:** 220 mm

Product highlights

VLounge software

Software for capturing, managing and archiving snapshots and video clips in a very convenient way. With just a couple of mouse clicks you will be able to create and send Video mails. This software package gives you all you need to take full advantage of your Philips webcam.

Snapshot button

With just one press of this button, your webcam takes a picture automatically - ready for adding to e-mails, web pages or documents.

30 frames per second video

With a 30 frames per second refresh rate you will enjoy natural-looking and full motion video calls without jumpy images some webcams produce.

Stable mount

The multifunctional stand makes it easy for you to mount the webcam on any monitor, laptop, notebook or flat surface.

Automatic face tracking

The state-of-the-art camera software automatically detects your face and moves the lens to follow you as you move. You stay in the center of the image even if you move during a video conference. It gives you the freedom to express yourself and converse naturally.

Pivot joint

Enjoy easy webcamming freedom with this handy pivot joint design. Just twist the camera 360° in any direction to film anywhere in your room without moving the webcam at all.

3X digital zoom

This built-in digital zoom lens allows you to easily shoot from a distance, bringing subjects closer.

Compatible with all services

The webcam and its software have been designed with all internet messaging and calling services in mind. Add video to Skype, Windows Live Messenger, Yahoo!, AOL Messenger and other free services. It also works with NetMeeting for multi-person video-conferencing and is designed to be future-proof.

Built-in digital microphone

The built-in digital microphone allows you to talk naturally and freely or to add sound to a video clip recording.

1.3 Mega pixels

With 1.3 Mega pixels you can use your webcam as a camera for taking high-quality photographs that are even good enough for printing larger sized high quality images.
